Important information for foreign students!

The Dean's Office of the Faculty of Foreign Students wants to inform about the following:

In connection with the numerous appeals of applicants regarding the passing of the Unified State Qualification Exam, Stage 1 (Integrated Test-Based Exam Krok 1 and English Language Proficiency Test) in September-October 2022, during the ongoing large-scale armed aggression of the Russian Federation against Ukraine and the extension of the Martial Law in Ukraine, the Testing Center at the Ministry of Health informs that foreign students who are now at the territory of Ukraine may register and pass the Exam in time.

In addition, the Testing Center plans to hold the abovementioned Exams in the winter and spring of 2023.

We also inform you that the Regulatory Acts do not provide for conducting Exams outside of Ukraine, but the Testing Center takes the necessary measures to resolve this issue.

We assure you that the Testing Center does everything possible to create safe and comfortable conditions for the attestation of applicants.

We work for Victory!

Everything will be Ukraine!
