

Dear colleagues,

Facing the unprecedented violence, devastation and damages as the result of russian invasion, higher education in Ukraine has shown unbelievable resilience, courage and sustainability.

Cormack Consultancy Group is looking at the opportunities to support Ukrainian universities with all means possible to help them rebuild and become stronger.

We are kindly asking you and your colleagues (as wide as it is possible within your institution) to participate in the survey on the future needs of the universities. CCG would be grateful for you to share the link with wider university community. The survey is concentrating on the needs of your particular university, but not on the needs of the larger higher education sector. The timeframe for the needs is for the next academic year and for next 5 years for strategical needs.

The purpose of the survey is to identify key areas, where the donors can make a significant impact for change and support. The results of the survey will be used to distinguish top priorities for Ukrainian universities and pass that information on to the donors, funds, etc.
