

**LIST OF CONDITIONS AND DISEASES
THAT ARE INCLUDED IN TASKS
ON CLINICAL PHARMACY, PHARMACEUTICAL CARE
(discipline Clinical Pharmacy)**

- | | |
|--|----------------------------------|
| 1. Arterial Hypertension | 18. Hypothyroidism |
| 2. Hypertensive crisis | 19. Pneumonia |
| 3. Ischemic Heart Disease, Angina pectoris | 20. Bronchitis |
| 4. Ischemic Heart Disease, Myocardial infarction | 21. Sinusitis |
| 5. Atherosclerosis | 22. Tonsillitis |
| 6. Heart failure | 23. Gastritis type B |
| 7. Bronchial asthma | 24. Gastric or duodenal ulcer |
| 8. Pyelonephritis | 25. Gastrointestinal bleeding |
| 9. Glomerulonephritis | 26. Cholecystitis |
| 10. Cystitis | 27. Cholelithiasis (Gallstones) |
| 11. Urolithiasis | 28. Pancreatitis |
| 12. Diabetes Mellitus Type 1 | 29. Rheumatoid arthritis |
| 13. Diabetes Mellitus Type 2 | 30. Systemic lupus erythematosus |
| 14. Diabetic angiopathy | 31. Gout |
| 15. Diabetic encephalopathy. | 32. Osteoporosis |
| 16. Hyperglycemic coma | 33. Iron deficiency anemia |
| 17. Hyperthyroidism | 34. Peptic ulcer |

**LIST OF MEDICATIONS THAT ARE INCLUDED
THAT ARE INCLUDED IN TASKS
ON CLINICAL PHARMACY, PHARMACEUTICAL CARE
(discipline Clinical Pharmacy)**

- | | |
|---------------------------------------|---|
| Drugs used in gastroenterology | |
| 1. Aluminum phosphate | 28. Diosmectite |
| 2. Ranitidine | 29. Loperamide |
| 3. Famotidine | 30. Sulfasalazine |
| 4. Misoprostol | 31. Lactobacilli |
| 5. Omeprazole | 32. Saccharomyces |
| 6. Lansoprazole | 33. Pancreatin |
| 7. Bismuth subcitrate | Drugs for the treatment of diabetes mellitus |
| 8. Simethicone | 34. Human insulin |
| 9. Mebeverine | 35. Insulin aspart |
| 10. Platyphyllin | 36. Insulin glargine |
| 11. Papaverine | 37. Metformin |
| 12. Drotaverine | 38. Glibenclamide |
| 13. Metoclopramide | 39. Gliclazide |
| 14. Domperidone | 40. Glimepiride |
| 15. Ursodeoxycholic acid | 41. Pioglitazone |
| 16. Silymarin | 42. Repaglinide |
| 17. Arginine glutamate | Drugs that affect the blood system and hematopoiesis |
| 18. Hepabene | 43. Warfarin |
| 19. Bisacodyl | 44. Heparin |
| 20. Castor oil | 45. Acetylsalicylic acid |
| 21. Senna glycosides | 46. Clopidogrel |
| 22. Sodium picosulfate | 47. Ticlopidine |
| 23. Lactulose | 48. Ticagrelol |
| 24. Nystatin | 49. Alteplase |
| 25. Phthalylsulfathiazole | 50. Streptokinase |
| 26. Nifuroxazide | 51. Aminocaproic acid |
| 27. Activated charcoal | 52. Etamzilate |

53. Iron sulfate
54. Iron oxide saccharate
55. Cyanocobalamin
56. Folic acid

Drugs that affect the cardiovascular system

57. Digoxin
58. Strophanthin
59. Lidocaine
60. Amiodaron
61. Epinephrine
62. Dopamine
63. Nitroglycerin
64. Isosorbide dinitrate
65. Isosorbide mononitrate
66. Methyldopa
67. Clonidine
68. Moxonidine
69. Hydrochlorothiazide
70. Indopamide
71. Furosemide
72. Ethacrynic acid
73. Spironolacton
74. Nicotinic acid
75. Xanthinol nicotinate
76. Pentoxifylline
77. Atenolol
78. Metoprolol
79. Propranolol
80. Amlodipine
81. Nifedipine
82. Verapamil
83. Diltiazem
84. Enalapril
85. Captopril
86. Lisinopril
87. Losartan
88. Atorvastatin
89. Simvastatin
90. Fenofibrate

Drugs used in dermatology

91. Nystatin
92. Clotrimazole
93. Miconazole
94. Ketoconazole
95. Fluconazole
96. Terbinafine
97. Diphenhydramine
98. Tetracycline
99. Chloramphenicol
100. Acyclovir
101. Metronidazole
102. Hydrocortisone
103. Prednisolone
104. Triamcinolone
105. Betamethasone
106. Fluticasone
107. Fluocinolone

Drugs that affect the genito-urinary system and sex hormones

108. Chloramphenicol
109. Clindamycin
110. Nystatin
111. Metronidazole
112. Miconazole
113. Ketoconazole
114. Dexamethasone
115. Methylprednisolone
116. Prednisone
117. Hydrocortisone
118. Levothyroxine
119. Thiamazole
120. Potassium iodide
121. Calcitonin

Antimicrobials for systemic use

122. Tetracycline
123. Chloramphenicol
124. Ampicillin
125. Amoxicillin
126. Benzylpenicillin
127. Cefazolin
128. Cefuroxime
129. Ceftriaxone
130. Erythromycin
131. Azithromycin
132. Clarithromycin
133. Streptomycin
134. Gentamicin
135. Ofloxacin
136. Ciprofloxacin
137. Metronidazole
138. Amphotericin B
139. Ketoconazole
140. Fluconazole
141. Acyclovir
142. Ribavirin
143. Rimantadine
144. Lamivudine
145. Oseltamivir
146. Inosine

Drugs affecting the musculoskeletal system

147. Diclofenac
148. Indomethacin
149. Meloxicam
150. Ibuprofen
151. Mefenamic acid
152. Celecoxib
153. Nimesulide
154. Chondroitin sulfate
155. Glucosamine
156. Penicillamine
157. Allopurinol
158. Colchicine
159. Alendronic acid

Drugs acting on the nervous system

160. Morphin
161. Fentanyl
162. Tramadol
163. Phenobarbital
164. Carbamazepine
165. Pregabalin
166. Sertraline
167. Levodopa
168. Amantadine
169. Pramipexole
170. Diazepam
171. Nitrazepam
172. Lithium
173. Amitriptyline
174. Caffeine
175. Piracetam
176. Ginkgo leaves

Antiparasitic drugs

177. Albendazole
178. Mebendazole
179. Pyrantel
180. Levamisole

Drugs acting on the respiratory system

181. Phenylephrine
182. Oxymetazoline
183. Xylometazoline
184. Loratadine
185. Beclomethasone

186. Fluticasone
187. Dexamethasone
188. Ambazon
189. Chlorhexidine
190. Benzalkonium
191. Fusafungine
192. Salbutamol
193. Fenoterol
194. Formoterol
195. Salmeterol
196. Beclomethasone
197. Budesonide
198. Fluticasone
199. Theophylline
200. Fenspiride
201. Omalizumab

Drugs used in case of cough and colds

202. Acetylcysteine
203. Bromhexine
204. Carbocysteine
205. Ambroxol
206. Oxeladine
207. Glaucine
208. Diphenhydramine
209. Cetirizine
210. Levocetirizine
211. Loratadine
212. Ketotifen
