

**Discussed and confirmed  
on the methodical council  
of the department  
August 30, 2019.**

**Thematic plan of lectures  
on discipline “Histology, Cytology, Embryology”  
for Foreign Students, Faculty of General Medicine,  
2<sup>nd</sup> year, Autumn semester, Academic year 2019-2020.**

<b>№</b>	<b>Topic of the lecture</b>	<b>Date</b>
1	Cardiovascular System. Structure and Classification of Vessels. Structure of the Heart.	5.09
2	Endocrine System. Histophysiological principles of neurohumoral regulation.	19.09
3	Digestive system – general characteristics. Oral cavity, Teeth.	03.10
4	Pharynx, Esophagus, Stomach. Histophysiology of digestion.	17.10
5	Small and Large Intestine. Peculiarities of mucosa structure of different parts of intestine.	31.10
6	Glands, associated with Digestive Tract. Salivary glands. Liver and Pancreas.	14.11
7	General morphofunctional characteristics of respiratory organs.	28.11
8	Kidneys and Urinary tract. Histophysiology of urine formation.	05.12
9	Male Reproductive system. General characteristics. Sources and course of development.	12.12
10	Female Reproductive system. Functions. Principles of regulation. Ovarian-menstrual cycle: phases, regulation.	19.12

**Note: duration of every lecture - 2 hours.**

**In total: 20 hours.**

**Chief of the Department  
of Histology, Cytology and Embryology  
Professor**

**Alexander Lutsyk, M.D, PhD**

**Deputy for Academic work,  
Assoc. Prof.**

**Olga Nakonechna, PhD**
