No 1 August 31, 2021

Head of the Department, prof. Nehrych T.I

Regulations for the final control and criteria for evaluating the results of educational activities of the applicant of the second (master's) level of higher education.

Educational level: second (master's) level of higher education
Areas of knowledge - 22 "Healthcare"

Specialties - 221 "Dentistry"

TYPES OF CONTROL (CURRENT AND FINAL):

The **current control** is carried out during practical classes and aims to check the assimilation of free educational material. Forms of current control are:

- a) test tasks with the choice of one correct answer, with the definition of the correct sequence of actions, with the definition of conformity, with the definition of a certain area in the photo or diagram ("recognition");
- b) individual oral examination, interview;
- c) solving typical clinical cases;
- e) control of practical skills.

Complex assessment of educational activities is carried out by setting the traditional assessment, which is converted into points, respectively, in each of the classes, the applicant of the second (master's) level of higher education receives in practice: grade "5" - if he performed correctly at least 90% of educational tasks; grade "4" - if he performed correctly at least 80% of educational tasks; grade "3" - if he correctly completed at least 60% of educational tasks; grade "2" - if he correctly completed less than 60% of educational tasks. At the final stage of the lesson, the teacher puts the amount of points scored and the traditional score in the journal of success.

Independent work of the applicant of the second (master's) level of higher education is evaluated in practical classes and is a component of the final assessment.

Final control

The general system of assessment is carried out upon completion of the study of the discipline in the form of a test.

Grading scales: traditional 4-point scale, multi-point (200-point) scale, ECTS rating scale

Credit is a form of final control of mastering of theoretical and practical material of academic discipline. The final control is carried out in writing, using the Misa training platform, according to the schedule. Lasts 2 academic hours.

The maximum number of points that can be scored by the applicant of the second (master's) level of higher education for current educational activities for admission to the test is 200 points.

The minimum number of points that the applicant of the second (master's) level of higher education must score for the current educational activity for admission to the test is 120 points.

The calculation of the number of points is based on the scores obtained by the applicant of the second (master's) level of higher education on a 4-point (national) scale during the study of the discipline, by calculating the arithmetic mean (AM), rounded to two decimal places. The resulting
