

**Відповідальні за тестове забезпечення
до практичних занять іноземних студентів стоматологічного факультету**

Терміни виконання:

Теми 1-4 – 11.01.2021

Теми 5-10 – 8.02.2021

Теми 11-18 – 22.02.2021

Перелік тестових завдань до іспиту для затвердження - 1.03. 2021

№	Theme	
1.	Physiology of blood. Investigation of physical and chemical properties of the blood.	Піняжко Р.О.
2.	Investigation of red blood cells count and haemoglobin concentration in the blood. Blood groups and blood-typing methods. Basis of hemotransfusion.	Піняжко Р.О.
3.	Defense functions of the blood. Hemostasis in dentoalveolar system.	Музика І.В.
4.	Physiology of the respiratory system. External breathing.	Кархут С.Т.
5.	Diffusion and transport of gases. Regulation of respiration.	Кархут С.Т.
6.	Practical skills of the Physiology of blood and respiratory system.	Музика І.В. Кархут С.Т.
7	Physiology of CVS. Investigation of physiological properties of the cardiac muscle. Investigation of dynamics of cardiac excitation. Recording and analysis of ECG.	Суходольська Н.В.
8.	Investigation of the pumping function of the heart.	Суходольська Н.В.
9.	Regulation of cardiac activity.	Суходольська Н.В.
10.	The role of blood vessels in the circulation. Investigation of blood pressure. Peripheral blood flow and its control. Methods of investigation of peripheral blood flow in the oral cavity. Lymphatic flow.	Суходольська Н.В.
11.	Practical skills of the Physiology of CVS.	Суходольська Н.В.
12.	Physiology of digestion. Impact of the quality and quantity of nutrition on the oral cavity functions.	Савицька М.Я.
13.	Digestion in stomach and duodenum. The role of liver and pancreas in the digestion.	Савицька М.Я.
14.	Digestion in the small and large intestine. Motility and absorption in the gastrointestinal tract.	Кархут С.Т.
15.	Influence of quality and quantity of macro- and micronutrients on oral health. Practical skills of the Physiology of digestion.	Савицька М.Я. Кархут С.Т.
16.	Renal Physiology. Investigation of urine formation mechanisms.	Піняжко Р.О.
17.	The role of the kidneys in the homeostasis and homeokinesis.	Піняжко Р.О.
18.	Practical skills of the Renal Physiology.	Піняжко Р.О.
19.	Practical skills of the Integrative Physiology. Summary.	Всі

Head of the Physiology Department

Prof. Zayachkivka O.S., MD, PhD, DSc
