

Regulations of conduction of a comprehensive practically-oriented state exam on specialty "Dentistry"

State examination is conducted on the basis of the four dental departments (Therapeutic Dentistry, Prosthetic Dentistry, Dental Surgery, Pediatric Dentistry). The four teams of examiners provide conduction of the exams. Dean forms the examination group and 4 subgroups of students for the exam in the particular department.

The exam starts at 8:30 in the auditorium №1 of the Regional Dental Clinic where the head of the State examination commission declares the department where each subgroup will take the test. Technical secretaries of each department receive the protocols for passing the exams of their subgroup of students.

Index books remain at the responsible secretary of the exam.

Head of the Department on which the exam is held is responsible person for organizing and conduction the exam.

Each Department provides the patients (1 adult and 1 child per student) for students who take the exam at this department.

After the exam all members of the four examination teams and members of the State exam commission gather in the hall to discuss the results, completion of documentation and declare the marks.
